ORCID: [0000-0003-2345-5043](https://orcid.org/0000-0003-2345-5043)

Positions	KU Leuven Postdoctoral researcher	Leuven, Belgium November 2025 – present
Education	Imperial College London PhD in Mathematics Research area: Differential Geometry Supervisors: Marie-Amélie Lawn and Steven Sivek Examiners: Simon Donaldson and Simon Salamon	London, UK October 2021 – October 2025
	University of Cambridge MASt in Mathematics (Part III)	Cambridge, UK September 2020 – June 2021
	Autonomous University of Barcelona Bachelor's Degree in Mathematics	Barcelona, Spain September 2015 – June 2020
	Autonomous University of Barcelona Bachelor's Degree in Physics	Barcelona, Spain September 2015 – June 2020
Awards	Yael Naim Dowker Prize for the Best Mathematics PhD Thesis Department of Mathematics, Imperial College London	2025
	Roth Scholarship Department of Mathematics, Imperial College London	2021
	EPSRC Scholarship EP/W523872	2021
Publications	Published / accepted Killing Mean Curvature Solitons from Riemannian Submersions with Marie-Amélie Lawn and Miguel Ortega. <i>Journal of Mathematical Analysis and Applications</i> , 2026. Available here. Invariant Spinors on Flag Manifolds with Uwe Semmelmann. <i>International Journal of Mathematics</i> , 2025. Available here. The Geometry of Generalised Spin^r Spinors on Projective Spaces with Jordan Hofmann. <i>Symmetry, Integrability and Geometry: Methods and Applications (SIGMA)</i> , 2025. Available here. Generalised Killing Spinors on Three-Dimensional Lie Groups <i>Manuscripta Mathematica</i> , 2025 Available here. Generalised Spin^r Structures on Homogeneous Spaces with Marie-Amélie Lawn. <i>Differential Geometry and its Applications</i> , 2025. Available here. New Examples of Translating Solitons in Generalised Robertson-Walker Geometries with Marie-Amélie Lawn and Miguel Ortega. <i>Asian Journal of Mathematics</i> , 2025. Available here. Preprints	

On the stability of Einstein metrics carrying a special twisted spinor
Preprint, 2025 [Available here](#).

Thesis

Special spinors in generalised spin geometry
PhD thesis, 2025 [Available here](#).

Talks

New spinorial criteria for the stability of Einstein metrics
Seminario de Geometría de la Universidad de Granada. Granada, Spain.
[Link to event site](#).

March 2026

Stability of Einstein metrics that carry special twisted spinors
Seminario de Geometría de la Universidad de Córdoba. Córdoba, Spain.
[Link to event site](#).

March 2026

Generalised Spin Structures
Differential Geometry and its Applications. Brno, Czech Republic.
[Link to event site](#).

September 2025

Generalised Spin Structures
Workshop on Even and Odd Dimensional Geometric Structures. Bari, Italy.
[Link to event site](#).

July 2025

A Generalisation of Spin Structures
Seminari de Topologia de la UB. Barcelona, Spain.
[Link to event site](#).

May 2025

Quaternion-Kähler Manifolds
Quaternion-Kähler manifolds and the LeBrun-Salamon Conjecture. The third Marburger Arbeitsgemeinschaft Mathematik (MAM III). Marburg, Germany.
[Link to event site](#).

February 2025

Spin Geometry and Generalisations
Seminari de Geometria de la UAB. Barcelona, Spain.
[Link to event site](#).

November 2024

Characteristic Classes on Homogeneous Spaces
Spin Geometry Working Group. London, UK.

June 2024

What is Spin Geometry?
KCL/UCL Junior Geometry Seminar. London, UK.
[Link to seminar site](#).

January 2024

Twisted Spin Structures
Forschungsseminar Differentialgeometrie und Analysis. Marburg, Germany.
[Link to seminar site](#).

November 2023

Invariant Twisted Spinors on Homogeneous Spaces
The Crazy World of Arthur L. Besse. A workshop on Einstein manifolds. Stuttgart, Germany.
[Link to event site](#).

October 2023

Generalised Spin^r Structures on Homogeneous Spaces
BIRS Workshop: Spinorial and Octonionic Aspects of G_2 and Spin(7) Geometry. Banff, Canada.
[Link to event site](#). [Recorded talk](#).

May 2023

Tauberian Operators on Banach Spaces
Red de Análisis Funcional y Aplicaciones: X Workshop on Functional Analysis in Tenerife. Spain.
[Link to event site](#).

March 2020

Research Visits	Research stay at the University of Granada	March 2026
	Collaboration with Miguel Ortega and delivery of a seminar.	
	Research stay at the University of Granada	September 2024
	Collaboration with Miguel Ortega, developing new methods for the study of mean curvature flow solitons using Riemannian submersions.	
	Research stay at Phillips Universität Marburg	November 2023
Teaching	Collaboration with Ilka Agricola, initiating a project on special contact metric structures.	
	Research stay at the University of Granada	September 2022
	Collaboration with Miguel Ortega, studying mean curvature flow on generalised Robertson–Walker spacetimes.	
	Undergraduate research stay at the Autonomous University of Barcelona	2017
	I studied some aspects of non-commutative algebra under the supervision of Francesc Perera.	
	Research stay at the Institute for High Energy Physics of Barcelona (IFAE)	July 2016
	Associate Fellowship of the Higher Education Academy	June 2024 – Present
	Official recognition of my teaching abilities and experience.	
	Supervision of extracurricular undergraduate research project	December 2024 – May 2025
	Supervision of a second-year undergraduate from the University of Bristol (extracurricular), working on Killing spinors with respect to the canonical connection on a homogeneous space.	
	Senior Graduate Teaching Assistant at Imperial College	October 2022 – October 2025
	Courses: Introduction to University Mathematics, Linear Algebra and Groups.	
	Duties: leading problem sessions, marking, checking academic materials, and coordinating the teaching task of my fellow teaching assistants.	
	Graduate Teaching Assistant at Imperial College	October 2021 – October 2025
	Courses: Introduction to University Mathematics, Linear Algebra and Groups, Analysis I, Analysis II, Measure Theory, Lebesgue Measure and Integration, Groups and Rings.	
	Undergraduate Teaching Assistant at the Autonomous University of Barcelona	2018
	Courses: Linear Algebra.	
	I led problem-solving sessions for first-year undergraduate students.	
Refereeing	Results in Mathematics , Springer, 2025	
	Journal of Differential Geometry , International Press of Boston, 2026	
	MathSciNet , American Mathematical Society, 2026
